What is a hackathon?

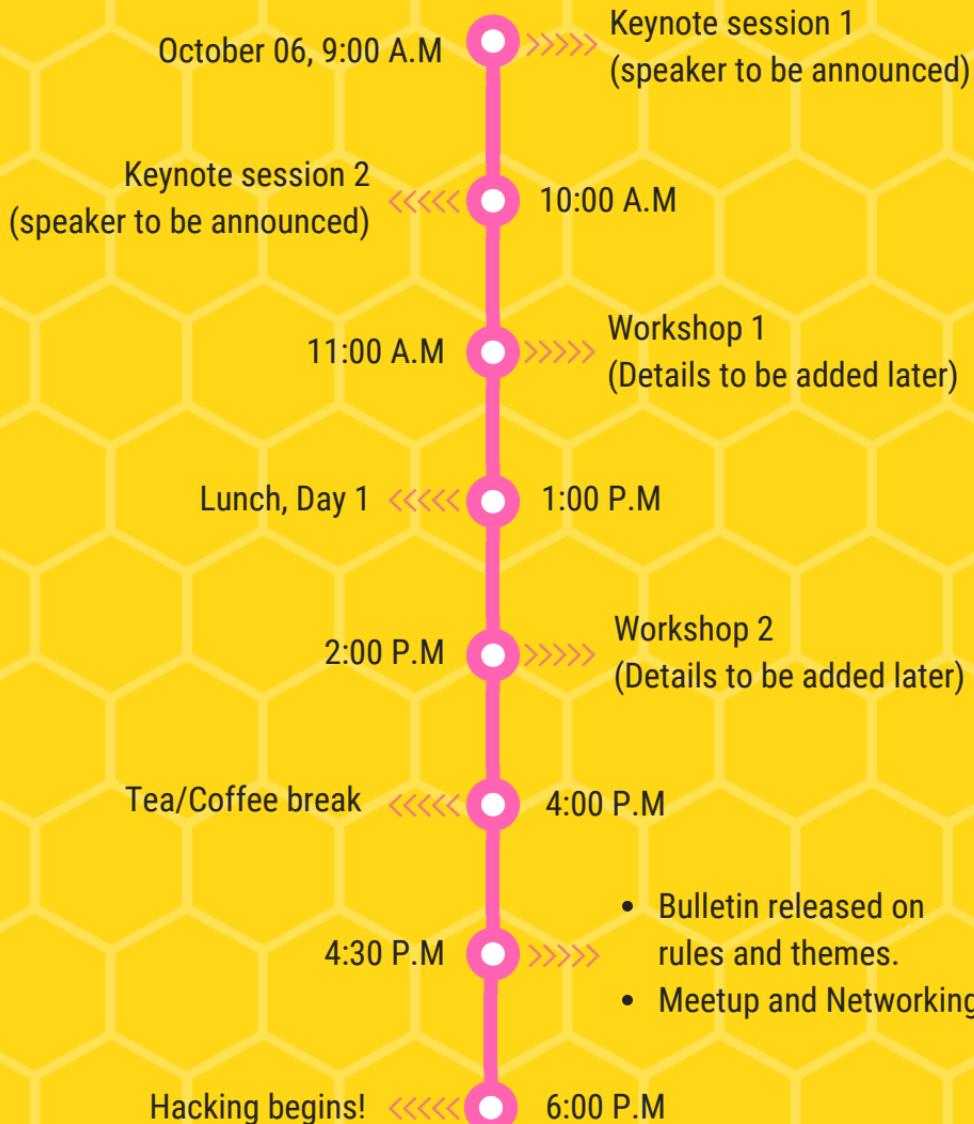

*The word *hackathon* is a portmanteau of the words *hack* and *marathon*, where the *hack* is used in the sense of playful, exploratory programming, not its alternate meaning as a reference to computer crime.* – Wikipedia

Hackathon is Invention + Marathon

Motivation

An attempt to bring collaborative learning, intellectual building, and technology atmosphere across all colleges in the Delhi-NCR demographic.

Event Schedule

Why sponsor us?

- Gain student awareness of your brand among top student developers and connect with top talent!
- Get access to over 200 applicant resumes, portfolios, websites, and GitHub profiles!
- Recruit students and developers who catch your eye. They'll be busy demonstrating their technical and teamwork skills in a high-energy and fast-paced environment!
- Expedite your company's brand recognition and show off your company's technical side through our sponsorship fair, workshops, API demos, and more.
- Run workshops and tutorials. Nothing catches students' eyes more than technologies and talks from those in the industry.

Main Prize

Winners	—	50,000 INR
Ist Runner-up	—	30,000 INR
IIInd Runner-up	—	20,000 INR

What's more?

- Every participating team is entitled to receive additional incentives based on their theme and solution they came up with such as a Raspberry Pi and Mi Band 2.
- Any non-finalist teams with pleasant work done based on live demos would also become a contender in winning an undisclosed prize in addition to all prizes.

Bonus Incentives

- Potential Job and Internship Opportunities
- Discounted *.tech* domains
- Access to Cloud/Database Credits
- hackCBS merchandise
- and, more bonus prizes
